Dear Teaching with AI LC participants,

What a wonderful hybrid gathering we had yesterday! Thank you to all who joined in person at the CTL or over Zoom to wrap up our community. Claudio and I appreciated hearing your many insights and takeaways, and the changes you have made or plan to make to your teaching!

At the end of each CTL LC, we distribute a brief survey to gather your feedback so we can better understand your experience and continue to improve our programming. [Please complete this ~3-5 min exit survey by Friday, May 9.](#)

Know that our support for you and your teaching doesn't end here. You are most welcome to engage with the following CTL offerings:

- [Individual consultations and/or supportive classroom observations](#)
- [Faculty Peer Coaching Program](#) (for full-time faculty) [Applications due May 9](#)
- [EMERGE Grants for Teaching](#) (up to \$500, rolling applications)
- [CTL Tech Studios](#) – podcast & lightboard studios available for faculty & student use
- (Coming this fall) – Critical Thinking LC, potential AI prompt-a-thon/pop-up sessions!

You can [explore our full list of CTL teaching supports here](#).

Wishing you all the best as you wrap up this semester/term!

Beth & Claudio
